CONTENTS.

FARMERS' BULLETIN NO. 1026.—STRAWBERRY CULTURE: SOUTH ATLANTIC AND GULF COAST REGIONS. Page.

Region to which this bulletin applies 3
Where to grow strawberries 4
Choosing the site for a plantation 6
Preparation of the soil 6
Establishing a strawberry plantation 10
Care after planting 20
Tillage 23
Companion cropping 24
The strawberry as an intercrop 25
Mulching 26
Green-manure crops 27
Fertilizers and lime 28
Irrigating 29
Renewing the plantation 30
Harvesting and shipping 32
Varieties 35
Insects and diseases 35
Uses of the strawberry 36

FARMERS' BULLETIN NO. 1027.—STRAWBERRY CULTURE: WESTERN UNITED STATES.

Region to which this bulletin applies 3
Factors limiting strawberry production 4
Preparation of the soil 8
How to obtain plants 12
Time of planting 13
Planting and training systems 13
Number of plants per acre 16
Care of plants 17
Setting the plants 17
Care after planting 18
Maintaining the fertility of the soil 20
Irrigating strawberries 20
The strawberry as an intercrop 21
Duration of a plantation 21
Renewing the plantation 22
Harvesting and shipping 22
Varieties 23
Insects and diseases 25
Uses of the strawberry 25

FARMERS' BULLETIN NO. 1028.—STRAWBERRY CULTURE: EASTERN UNITED STATES.

Region to which this bulletin applies 3
Importance of the strawberry 4
Why cultural practices vary in different regions 5
Extent of strawberry shipments 6
Raising strawberries as a truck crop 8
Where to grow strawberries 8
Choosing the site for a plantation 9
Preparation of the soil 11
Establishing a strawberry plantation 13
Care during the first summer 25
Companion crops with strawberries 28
The strawberry as an intercrop 30
Fertilizers 30
Use of lime 32

FARMERS' BULLETIN NO. 1028.—STRAWBERRY CULTURE; EASTERN UNITED STATES—Continued. Page.
Irrigation 32
Mulching 33
Picking 36
Keeping after picking 37
Duration of the plantation 38
Renewing the plantation 39
Fall-set plants for fancy fruit 41
Frost protection 42
Propagation 42
Plants with perfect and imperfect flowers 44
Varieties 45
Uses of the strawberry 46

FARMERS' BULLETIN NO. 1029.—CONSERVING CORN FROM WEEVILS IN THE GULF COAST STATES.
Corn and Southern agriculture 3
Weevils destroy corn 3
Not necessary to sell early to avoid loss 4
The farmer can do for himself what the speculator has found it profitable to do for the farmer 4
Farmers make money by killing weevils 4
Insects that injure corn in storage 5
The Angoumois grain moth 6
The rice or "black" weevil 8
Insects do not develop spontaneously in corn 14
Why weevils appear to develop spontaneously 14
Methods of controlling weevils 15
Have a fumigatorium of your own 36

FARMERS' BULLETIN NO. 1030.—FEEDING HORSES.
Study of rations necessary 3
Local influences important 3
Conditions affecting feed requirements 4
Selecting a ration 4
Balancing a ration 4
The computation of rations 5
Method of computing rations 9
Principal feeds for horses 11
Suggested daily rations 22

FARMERS' BULLETIN NO. 1031.—FIG GROWING IN THE SOUTH ATLANTIC AND GULF STATES.
Extent of fig growing in the South 3
Soils of fig trees 6
Propagation of fig trees 9
Sites for fig trees 11
Planting the trees 12
Maintaining the fertility of the soil 14
Pruning fig trees 18
Fig diseases 25
Insect pests of figs 28
Pests other than insects 34
Fig varieties 35
Characterization of fig varieties 36
Handling the fruit 38
Shipping fresh fruit 39
Utilization of figs 39
Home methods of preserving figs 41
Drying figs 43

FARMERS' BULLETIN NO. 1032.—OPERATING A COOPERATIVE MOTOR TRUCK ROUTE.
Three methods of operating motor truck routes 3
Why the cooperative association described was formed 5
How the association was formed 6
The charter 6
Capitalization of association 7
Membership and management 8

FARMERS' BULLETIN No. 1032—OPERATING A COOPERATIVE MOTOR TRUCK ROUTE—Continued. Page.
Some problems in operation 10
Benefits from the association 19
Suggestions 23

FARMERS' BULLETIN No. 1033.—MUSCADINE GRAPE PASTE.
Desirability of fruit pastes 3
Muscadine grape paste making 4
Other fruit pastes 12
Muscadine grape paste an economy 13

FARMERS' BULLETIN No. 1034.—GROWING SUGAR CANE FOR SIRUP.
Methods of propagation 3
Varieties of sugar cane 5
Selection of sugar cane land 8
Manurial requirements 10
Application of fertilizers 11
Crop rotation 12
Preparation of the land 13
Planting 13
Cultivating the crop 18
Harvesting 19
Yields of cane 22
Sirup yields 23
Storing cane for planting 23
Insect pests and diseases of cane 25
Equipment required 27
Supplies required in growing the cane and making the sirup 28
Requirements in labor and work animals 29
Marketing the sirup 31
Utilization of by-products 32

FARMERS' BULLETIN No. 1035.—THE FARM TRACTOR IN THE DAKOTAS.
First used in the Northwest 3
Smaller and better tractors made 4
Facts and figures from actual service 4
Dakota conditions 5
Advantages and disadvantages of the tractor 6
Size of farm and tractor 7
Cost of tractor outfit 11
Life of tractor 12
Days used annually 13
Repairs 15
Work done per day 17
Cost of operating 19
Economy 24
Quality of work 25
Operation 26
Reliability 28
Displacement of horses 29
Custom work 30
Effect of use of tractor on crop yields 31
Tractor equipment 32

FARMERS' BULLETIN No. 1036.—CARE AND REPAIR OF FARM IMPLEMENTS: No. 5, GRAIN SEPARATORS.
Overhaul machines in ample time 3
Cylinders 3
Concaves 5
Separating grates 5
The feeder 5
Chain rakes 7
Beaters 7
Aprons or check boards 7
Straw racks or shakers 8
Grain pan (conveyor) 8
Chaffer 9
Cleaners 9
Fan 9

FARMERS' BULLETIN NO. 1036.—CARE AND REPAIR OF FARM IMPLEMENTS: NO. 5, GRAIN SEPARATORS—Continued. Page.
Grain augers and elevators ... 10
Stacker ... 11
Trucks and frames ... 12
Weigher and bagger ... 12
Pulleys ... 12
Rabbitting bearings ... 13
Belt lacing ... 15
Housing ... 16
Illustrations ... 17

FARMERS' BULLETIN NO. 1037.—"WHITE ANTS" AS PESTS IN THE UNITED STATES AND METHODS OF PREVENTING THEIR DAMAGE.
Description and habits of white ants ... 3
Life cycle of white ants ... 5
The swarm ... 5
Damage to woodwork of buildings and to other timber ... 6
Damage to stored material ... 7
Damage to fruit, nut, shade, and forest trees ...
Damage to field crops and grazing land ...
Damage to nursery stock, young plantation stock, and vineyards ... 9
Damage to shrubs, flowers, and greenhouse stock ... 9
Protection of woodwork in buildings ... 10
Protection of stored material ... 14
Protection of living trees ... 15
Protection of nursery stock, vineyards, and field crops ... 15
Protection of flowers and greenhouse stock ... 15

FARMERS' BULLETIN NO. 1038.—THE STRIPED CUCUMBER BEETLE AND ITS CONTROL.
Appearance and nature of injury ... 3
What the insect looks like in its different stages ... 4
Where it occurs ... 5
Its food plants ... 6
Life history and habits ... 7
Natural enemies ... 9
How to control the striped cucumber beetle ... 10
Remedies in brief ... 20

FARMERS' BULLETIN NO. 1039.—COMMERCIAL COMB-HONEY PRODUCTION.
Comb-honey production calls for specialists ... 3
Apparatus for comb-honey production ... 4
Shop and honey house ... 4
Hives ... 5
Sections ... 7
Supers ... 9
Separators ... 11
Shallow extracting supers ... 11
Other apparatus ... 11
Preparing supers ... 12
Management of the bees ... 13
Securing workers for the honey-flow ... 14
Using available workers to best advantage during the honey-flow ... 19
Swarming—Preventive and remedial measures ... 20
Manipulation of the supers ... 33
Caring for the crop ... 36
Removing the honey from the hives ... 36
Care of comb-honey ... 37
Scraping propolis from sections ... 38
Grading comb honey ... 38
Packages for comb honey ... 39
Marketing ... 40

FARMERS' BULLETIN NO. 1040.—ILLUSTRATED POULTRY PRIMER.
Selecting the breed ... 3
Breeding ... 8
Artificial and natural incubation and brooding ... 10
Poultry houses and fixtures ... 14
Produce infertile eggs ... 16
Feeding for egg production ... 19

FARMERS' BULLETIN No. 1040.—ILLUSTRATED POULTRY PRIMER—Continued. Page.
Marketing the product 22
Caponizing 24
Lice and mites 25
Common diseases and treatment 26
Nine essential features 28

FARMERS' BULLETIN No. 1041.—THE EELWORM DISEASE OF WHEAT AND ITS CONTROL.
Description of the disease 3
Cause of the disease 4
Distribution and importance 4
Control of the disease 6
Clean seed 8
Crop rotation 10
Sanitation 10

FARMERS' BULLETIN No. 1042.—SAVING MAN LABOR IN SUGAR-BEET FIELDS.
Factors in saving labor 3
Plowing practice 4
Disking practice 7
Spike-tooth harrowing 8
Spring-tooth harrowing 8
Cultivating 9
Lifting 11
Mechanical lifters and toppers 13
Hauling sugar beets 16

FARMERS' BULLETIN No. 1043.—STRAWBERRY VARIETIES IN THE UNITED STATES.
Testing varieties 3
Extension of strawberry growing 4
Extension of ripening season 7
Sex of strawberries 8
Adaptation of strawberry varieties 8
Distribution of varieties 11
How to use the list of varieites 11
List of varieties 13
Importance of the varieties 17
Varieties for special purposes 19
New varieties 24
The running out of varieties 25
Characterization of the more important varieties 27

FARMERS' BULLETIN No. 1044.—THE CITY HOME GARDEN.
Type and location of the city garden 4
Preparation of the soil 7
Tools 11
Seeds 11
Starting early plants 11
Planting zones 15
General care of the garden 19
Crops for the city home garden 21

FARMERS' BULLETIN No. 1045.—LAYING OUT FIELDS FOR TRACTOR PLOWING.
Factors to be considered in making plans for tractor plowing 3
Methods in which plows are lifted at the ends 5
Width of lands 5
Headlands 6
Setting stakes and markers 7
Nine methods of laying out fields 8
Plowing the headlands 28
Methods in which plows are left out of the ground in going across the ends 29
Four methods of laying out fields 30
Irregular fields 38

FARMERS' BULLETIN No. 1046.—THE EUROPEAN CORN BORER: A MENACE TO THE COUNTRY'S CORN CROP.
Serious nature of the insect 3
Discovery and distribution in this country 3
Plants attacked by the insect in Massachusetts 5
Character of injury to corn 8

FARMERS' BULLETIN NO. 1046.—THE EUROPEAN CORN BORER; A MENACE TO THE COUNTRY'S CORN CROP—Continued. Page.
Character of injury to plants other than corn 12
Seasonal history and habits 13
Peculiar feeding habits of the insect 19
Natural enemies 21
Means for preventing widespread injury to the country's corn crop 22
Transportation of corn borer forbidden by law 23
Methods of control and eradication 23
Possible prevention measures 26

FARMERS' BULLETIN NO. 1047.—DRY FARMING FOR BETTER WHEAT YIELDS. THE COLUMBIA AND SNAKE RIVER BASINS.
Dry-farming districts in the Pacific Northwest 3
Description of the region 4
Possibilities of increasing wheat yields 4
Practices in the different summer-fallow methods 6
Results from different summer-fallow methods 6
Purposes of summer-fallowing 7
Summer fallowing nonblow soils 9
Summer fallowing blow soils 14
Suggestions for preventing the blowing of soils not being summer-fallowed 17
Suggestions for stopping soil blows 18
Seeding winter wheat 20
Seeding spring wheat 21
Maintaining the organic matter of the soil 22

FARMERS' BULLETIN NO. 1048.—RHODES GRASS.
Characteristics of Rhodes grass 3
History 3
Regions to which Rhodes grass is best adapted 5
Soil preferences 6
Seeding 6
Treatment and cultivation 9
Hay cutting and yields 10
Value for pasture 11
Continuous grazing not advisable 12
Seed saving 12

FARMERS' BULLETIN NO. 1049.—BALING HAY.
Types of presses 4
Compresses 12
Size of bales 13
Condition of hay for baling 14
Operating the press 17
Size and management of baling crews 24
Cost of baling hay 33
Hiring a press 28
Advisability of owning a press 28
Advantages of baling hay from the field 31
Marking the weight of the bales and its effect on prices 32
Care of baled hay 33

FARMERS' BULLETIN NO. 1050.—HANDLING AND LOADING SOUTHERN NEW POTATOES.
Commercial importance of Southern new potatoes 3
Some "don'ts" for potato diggers 4
Why it pays to grade potatoes 5
Avoid losses caused by shipping diseased and bruised potatoes 7
Use the proper method of loading cars 8
Barrels 9
Sacks 11
Hampers 15
Crates 16
Types of cars 16
Additional points to be remembered 17
